The best in Floatation Tank design and technology is finally here!

The Dreampod is a perfect integration of elegance and well-being.

It boasts a modern and sophisticated design, top of the line product quality, and is the most competitively priced floatation tank today.

DESIGN CONCEPT

The Dreampod was designed to be aesthetically welcoming for floaters.

With its organic and smooth shape, along with its spacious interior, the Dreampod is sure to exude a safe and welcoming presence.

You will marvel at it's elegant design, and floaters will feel both safe, and comfortable in it's embrace.

CONTROL PANEL

The Dreampod is managed via remote control that operates the interior lights, temperature, filtration, session length, MP3 music, attendant call, and a variety of other special features. The Controller itself is wired via standard Ethernet, allowing easy access from anywhere in the facility, wired or wirelessly. Just one PC, or Ipad (and other tablets) can easily control multiple tanks. No other tank offers such flexibility with it's control system.

HARDWARE FEATURES

1. Double layer GRP tank with insulation for better heat retention and sound proofing
2. Anti-slip surface
3. Electrical Leakage Protection
4. Water Leakage Protection
5. Motion Sensor
6. Accurate peristaltic chlorine and peroxide twin-dosing dispenser
7. Elecro nano-spa: High efficiency, titanium heater exchanger
8. UV anti-bacterial light
9. Composite materials, anti-corrosion, silent magnetic-drive centrifugal pump
10. Tactile transducer for excellent underwater acoustic & sound
11. Proprietary stainless steel filter system with micron size particle filter
12. Soft Light therapy via proprietary LED light and control technology. (Chakra colors)
13. Advance ventilation system

SOME OF OUR SOFTWARE FEATURES INCLUDE

1. Auto adjusting temperature
2. In-Tank Music system. Up-loadable MP3's
3. Adjustable session length
4. Automated filter system
5. Automated chemical-dosing system.
6. State of the art operating system.
7. Leakage protector with SMS notification

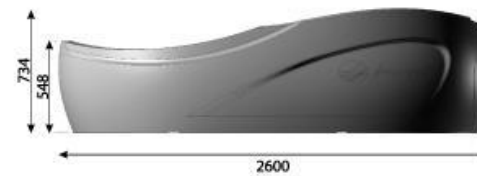

key points include:

- Proven for relieving hypertension, (the great urban condition)
- Accelerates the healing process especially sports injuries, and musculo-skeletal conditions. (The body in zero-gravity allows muscle, fascia to mend)
- GREATLY reduces chronic and acute pain
- The technology these days and the equipment design means even a claustrophobe can float (with the 'door' open). Plus there is air circulated throughout the pod
- Technology has come a long way with float tanks since the late 80's and now usage, hygiene, etc. are no longer issues
- The Dreampod also has chakra-LED lighting too!
- If you have jetlag or insomnia, floating is so deeply relaxing and often compared to returning to the womb
- The Dreampod does not require staff for the full operational time

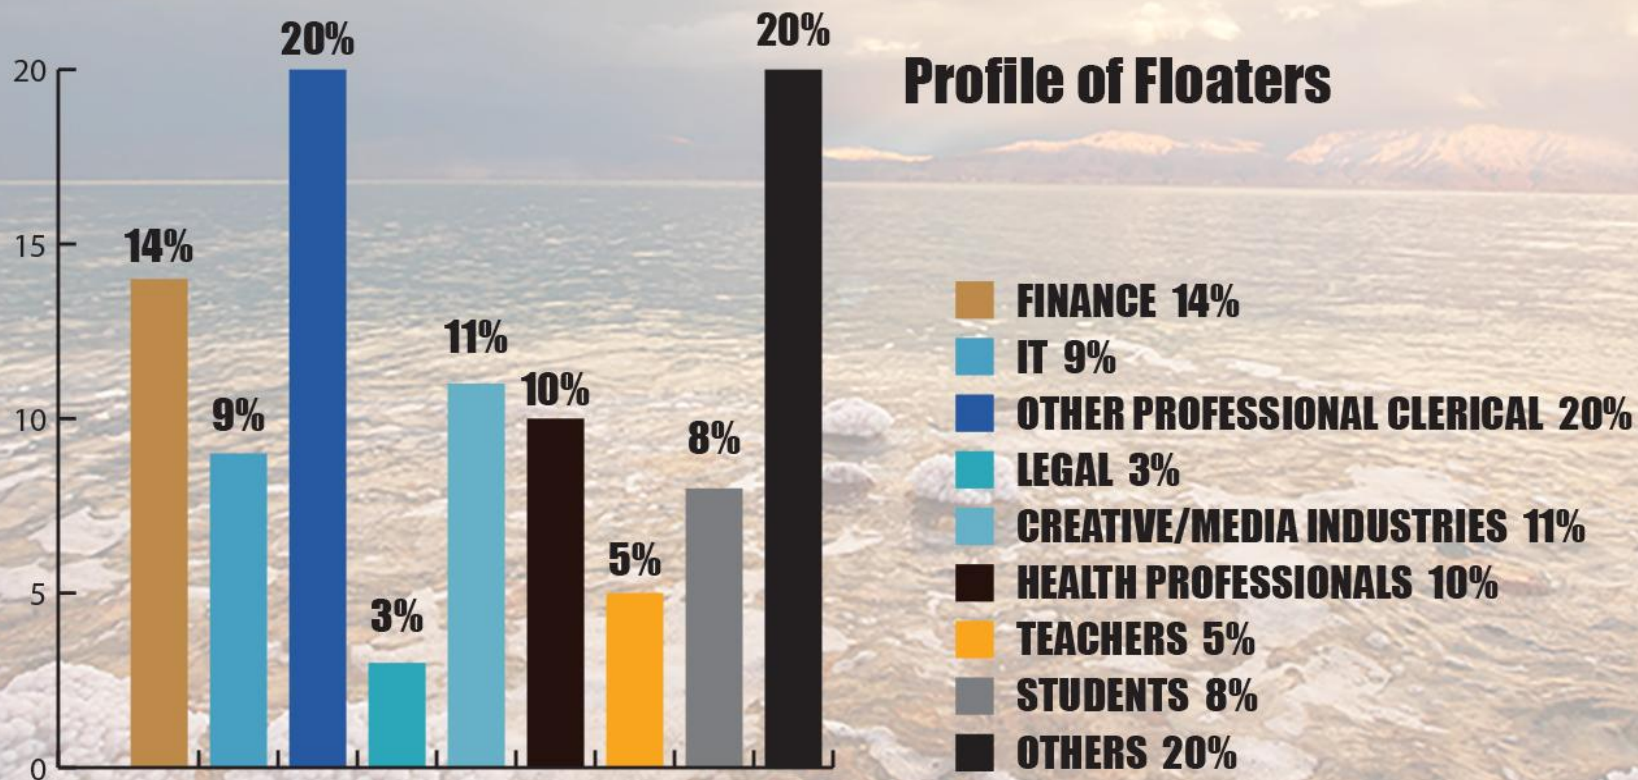

Dimensions

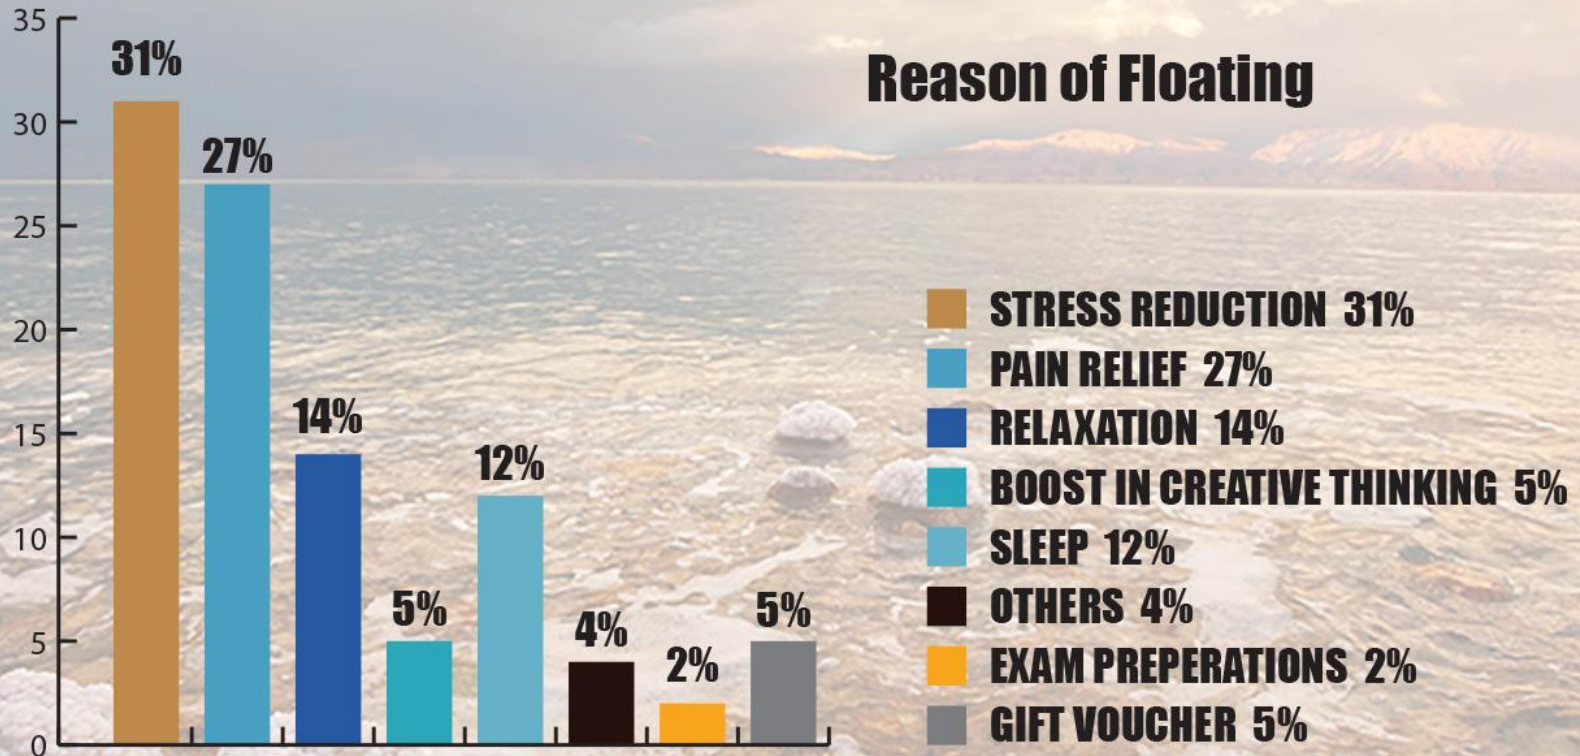

Below is a chart representing the profile of floaters who float at our center.

Below is another chart representing the reason, which customers come to float.

PRICE

*Each Dreampod is
USD19,000*

*Price includes 600KG of Epsom salt
per tank and a kit for “spare parts”*
