

## OEMDRY-S Desiccant FDA Compliance Report

OEMSERV '**OEMDRY-S**' active starch based desiccants packaged in Tyvek® and/or in PE/PP non-woven packaging film comply with all the requirements of the US Food and Drug Administration (FDA) for materials in contact with Food and Drugs.

In details,

- 1) The desiccant is composed by Modified Cornstarch and Calcium Chloride which are non-toxic materials.
- 2) Modified Cornstarch is approved by the FDA and included in Title 21, of the Code of Federal Regulations, part 172, subpart I, 172.892 as Food Starch-Modified.
- 3) Calcium Chloride or Anhydrous Calcium Chloride is recognized as "Direct food substances affirmed as generally recognized as safe" (GRAS) material by Title 21 of the Code of Federal Regulations, part 184, subpart B, Section 184.1193 .
- 4) The desiccant is sealed in a Tyvek® film that meets the requirement of the FDA as stated in Title 21 of the Code of Regulations section 177.1520 and 178.2010.
- 5) If the desiccant is sealed in polyester/polypropylene non-woven film (GDT-2) packet or bag, the film meets the requirement of the FDA as stated in Title 21 of the Code of Federal Regulations sections 177.1520 and 178.2010.
- 6) The Ink and adhesives used in the OEMDRY packaging process meet the requirements of the FDA as stated in Title 21 of the Code of Federal Regulations sections 175.105, 175.300, 175.320, 176.17, and 176.180
- 7) The desiccant bears statements, in multiple languages, warning consumers against accidental ingestion.
